

**ambiente s.c.**

**[Energetika / Zaštita životne sredine]**

Grad: carrara, toscana

**[www.ambientesc.it](http://www.ambientesc.it)**

**o kompaniji:**

*Ambiente S.C. je kompanija za zaštitu životne sredine i inženjering sa više od 35 godina iskustva. Poslovanje kompanije podeljeno je na dva sektora: inženjering i laboratorije za zaštitu životne sredine, i hemijske i biološke laboratorije. Po veličini i kapacitetu proizvodnje, Ambiente S.C. nalazi se među najvažnijim italijanskim laboratorijama za zaštitu životne sredine. Zahvaljujući dugogodišnjem iskustvu i razvoju, kompanija se danas može osloniti na posvećenost i rad više od 250 tehničara, stručnjaka za tehnička, naučna, pravna i ekonomska pitanja, koji mogu da garantuju integrisano planiranje životne sredine u skladu sa važećom zakonskom regulativom, sa posebnim akcentom na odnos troškova, prihoda i dobiti.*

*Ambiente S.C. svoje usluge pruža u okviru sektora velikih građevinskih infrastruktura (autoputevi, putevi, železnice), sektora industrije (hemijske, mašinske, rudarstva i prehrambene), kao i značajnim domaćim i međunarodnim kompanijama u sektoru industrije nafte i gasa. Na međunarodnom nivou, kompanija učestvuje u projektima koje promovišu glavne međunarodne finansijske institucije.*

**opis na engleskom:**

*We are an environmental consulting and engineering firm with over 35 years of experience. We are organized into two main sectors: engineering and environmental, chemical and biological test laboratories currently, for size and production capacity, we are among the most important Italian environmental laboratories. We have grown over the years and today we can rely on the work and passion of over 250 technicians, experts in technical, scientific, legal and economic matters, able to guarantee an integrated environmental planning in line with the reference regulatory requirements and attentive to the cost-benefit ratio.*

*We work for the sector of the great civil infrastructures (highways, roads, railways), for the industry (chemical, mechanical, mining, food) and for important national and international companies in the oil & gas sector. We also work for several local institutions: Within the international scene, we are participating in projects promoted by main International Financial Institutions.*

**Ascot Industrial Srl**

**[Energetika / Zaštita životne sredine]**

Grad: Gela, Sicilia

**www.ascotinternational.com**

**o kompaniji:**

*Proizvođač dizel agregata (diesel genset) i hibridnih generatora.*

**opis na engleskom:**

*Diesel Genrating Set manufacturer and hybrid generators manufacturer.*

**ponuda (na engleskom):**

*Hybrid generators with renewable energy integration.*

---

**Ayrion Spa**

**[Energetika / Zaštita životne sredine]**

Grad: Diegaro di Cesena, Emilia Romagna

**biospheresrl.com**

**o kompaniji:**

*1) Proizvodnja električne energije iz obnovljivih izvora anaerobnom fermentacijom biomase.*

*2) Proizvodnja molekula i enzima za različite industrijske sektore: farmaceutski, kozmetički, nutraceutički i prehrambeni.*

**opis na engleskom:**

*1) Production of Power Energy from renewable sources throughout anaerobic fermentation of biomass .*

*2) Production of molecules and enzymes for different industrial sectors: pharmaceutical , cosmetic, nutraceutical and food.*

**ponuda (na engleskom):**

*Different substrate to boost anaerobic fermentation.*

*Various Fermentation process and substrate and related intermediates .*

---

**bioenergy italia spa**

**[Energetika / Zaštita životne sredine]**

Grad: bari, Bari

**[www.bioenergyitalia.it](http://www.bioenergyitalia.it)**

**o kompaniji:**

*Usluge posredovanja u upravljanju otpadom i proizvodnja energije iz alternativnih izvora*

**opis na engleskom:**

*Services of intermediation of waste (g.lgs 152/06) and production of alternative energy*

**ponuda (na engleskom):**

*Plant for the production of RDF (Refuse Derived Fuel) and plant for the production of biogas from sewage sludge through internationally patented technologies*

---

**COMFORT ECO srl**

**[Energetika / Zaštita životne sredine]**

Grad: SURBO, PUGLIA

**[www.comforteco.it](http://www.comforteco.it)**

**o kompaniji:**

*Izgradnja, upravljanje i održavanje civilnih / industrijskih postrojenja za prečišćavanje otpadnih voda*

**opis na engleskom:**

*Realization, management and maintenance of civil / industrial sewage water purification plants*

**ponuda (na engleskom):**

*Water treatment plants*

---

**DE MARE S.r.l.**

**[Energetika / Zaštita životne sredine]**

Grad: Moliterno, BASILICATA

[www.demare.it](http://www.demare.it)

**o kompaniji:**

*De Mare posluje u sektoru životne sredine, i bavi se, pre svega, projektovanjem, izgradnjom i upravljanjem deponijama, kao i remedijacijom zagađenih lokacija, u Italiji i inostranstvu. Misija kompanije De Mare je: zaštita životne sredine i melioracija korišćenjem proizvoda visokog kvaliteta, stručne radne snage i stručnih tehničara. Vizija kompanije je: širenje kulture kvaliteta u izgradnji i upravljanju deponijama, kako bi se ostvario rast u poslovanju, i kako bismo poštovali planetu. De Mare prati inicijative koje je promovishe ICE Agencija, učestvuje u njenim poslovnim susretima i zainteresovana je za rad na području Balkana.*

**opis na engleskom:**

*De Mare works into environmental field and in particular into design, construction and management of landfills, remediation of contaminated sites, in Italy and abroad. De Mare "mission" is: Environmental protection and reclamation using high quality products, skilled labor and expert technicians. Its "vision" is: To spread the quality culture into building and management of landfills, in order to work for business growth and for planet respect. De Mare follows the initiatives promoted by ITA - Italian Trade Agency, it takes part to its events and it's interested in working in the Balkans area.*

**ponuda (na engleskom):**

*Waste collection, disposal and treatment systems.*

---

**DIPAR - Distretto Produttivo dell'Ambiente e del Riutilizzo**

**[Energetika / Zaštita životne sredine]**

Grad: Taranto, Puglia

[www.dipar.info](http://www.dipar.info)

**o kompaniji:**

*DIPAR je klaster preduzeća iz sektora životne sredine i reciklaže, u čiji sastav ulazi 200 kompanija, sindikata, javnih i privatnih korporativnih tela i univerziteta / istraživačkih centara.*

*DIPAR je zamišljen kao mesto susreta koje spaja različite profile aktera koji se bave životnom sredinom, sa ciljem da se ostvari sinergija između naučnih i kulturnih veština, i proizvođačkih i preduzetničkih sposobnosti.*

**opis na engleskom:**

*DIPAR is the Productive Cluster of the Environment and the Reuse composed by 200 companies, Trade Unions, Public and Private corporate bodies and Universities/Research Centers.*

*DIPAR intends to represent the favourite meeting place in which links the plurality of professional subjects that deal with environment, with the purpose to realize a new synergy among scientific,*

*cultural skills and productive and entrepreneurial abilities.*

**ponuda (na engleskom):**

*Innovative technologies in the following sectors: water treatment, waste treatment and remediation of contaminated sites.*

---

**Eco Impianti Srl**

**[Energetika / Zaštita životne sredine]**

Grad: Stigliano, Basilicata

**[www.ecoimpiantisrl.eu](http://www.ecoimpiantisrl.eu)**

**o kompaniji:**

*Prevoz i odlaganje komunalnog otpada - Izgradnja postrojenja za prečišćavanje otpadnih voda - Metalna stolarija - Izgradnja vodovoda i kanalizacije*

**opis na engleskom:**

*Transportation and disposal of urban waste - Construction of water purification plants - Metallic carpentry - Construction of aqueducts and sewers*

**ponuda (na engleskom):**

*Waste disposal according to EU regulations - wastewater treatment with the best available technologies - Implementation of aqueducts and sewers respecting the environment.*

---

**For.Tec. Forniture Tecnologiche S.r.l.**

**[Energetika / Zaštita životne sredine]**

Grad: Francolise, Campania

**[www.fortec-inceneritori.it](http://www.fortec-inceneritori.it)**

**o kompaniji:**

*For.Tec. Forniture Tecnologiche S.r.l. je italijanska kompanija sa 40 godina iskustva u projektovanju, proizvodnji, prodaji i instalaciji visokotehnoloških ekoloških postrojenja.*

*Zahvaljujući detaljnim inženjerskim studijama i stručnosti zaposlenih, kompanija može da ponudi različite vrste spalionica za skoro svaku vrstu otpada od 10 do 500 kg / h, krematorijume i industrijske peći nove generacije. Naša proizvodni asortiman obuhvata: spalionice za medicinski otpad koji odlažu bolnice, odlaganje medicinskih i industrijskih otpadnih voda, spalionice animalnog otpada (kafilerije i klanice), spalionice organskog otpada, krematorijume i pirolitičke peći.*

**opis na engleskom:**

*For.Tec. Forniture Tecnologiche S.r.l. is an Italian Company with 40 years of experience designing, manufacturing, selling and installing high-tech ecologic plants.*

*Thanks to detailed engineering studies*

*and skilled technicians' collaboration, we*

*can offer a full range of incinerators for almost every type of waste from 10 to 500 Kg/h, sophisticated crematories and new concept industrial ovens. Our production includes: hospital, medical and industrial waste incinerators, animal carcasses, slaughterhouse and organic waste incinerators, crematories for corpses and pet and pyrolytic stripping oven.*

*Our technical team daily performs, with great professionalism, analysis of customers' specifications, feasibility studies, customized designs and tests, after-sales service and remote assistance.*

**ponuda (na engleskom):**

*Incineration on site in small plants with the possibility of recovering the heat in order to make hot air/hot water/steam*

---

**GEACO SRL**

**[Energetika / Zaštita životne sredine]**

Grad: Isernia, Molise

**[www.geaco.it](http://www.geaco.it)**

**o kompaniji:**

*Upravljanje građevinskim kompanijama, turistički i stambeno-poslovni kompleksi, javni radovi.*

*Specijalizovani za projektovanje, izgradnju anti-seizmičkih i energetski efikasnih zgrada.*

*Mere za smanjenje seizmičkog rizika*

*Izgradnja postrojenja za kogeneraciju i odlaganje komunalnog i specijalnog čvrstog otpada.*

*Putevi i autoputevi.*

*Železnice*

*Rekonstrukcija i restauracija*

*Unapređenje zaštite životne sredine i sistema kvaliteta, optimizacija sistema za odlaganje otpada, monitoring životne sredine, projektovanje i izgradnja postrojenja za prečišćavanje otpadnih voda.*

*Obnovljiva energija, projektovanje i konsalting.*

**opis na engleskom:**

*Construction companies management, touristic and private buildings, public works.*

*Specialization in the design, construction of anti-seismic and energy-efficient buildings.*

*Seismic requalification of buildings with earthquake dissipators / isolators, pillar hoops, CAM system application and seaming of structural structures.*

*Construction of waste-to-energy plants for the disposal of urban and special solid waste.*

*Road and motorway works.*

*Railway works.*

*Restoration works.*

*Improvement environment and quality systems, environmental assistance service, optimization of the waste disposal system, environment monitoring, waste water treatment plant design and build.*

*Renewable energies, design and consultancy.*

**ponuda (na engleskom):**

*As per description*

---

**Geom. CIRO FRISOLI**

**[Energetika / Zaštita životne sredine]**

**o kompaniji:**

*Firma sepcijalizovana za integrisanja rešenja prerade i skladištenja otpada. Inženjering, građevinarstvo, dva evropska patenta, kao i produžavanje radnog veka deponija su neke od jakih strana ove renomirane firme sa Juga Italije.*

**opis na engleskom:**

*The "geom. Ciro Frisoli & C. S.a.s." is South-East Italy's provider of integrated waste solutions offering its services on the whole national and international territory.*

*The company works with groundbreaking techniques in order to pursue the growing necessity of minimizing environmental impacts and the inadequate use of natural resources, offering a wide variety of operations, such as:*

- Recovery of volume in active or exhausted landfills;*
- Landfill construction and management ;*
- Environmental reclamation;*
- Consultative engineering and construction services.*

*The company has executed and filed two European patents which permit to be very competitive and at the forefront in the environmental field.*

*The patent "Refuse dump containment structure" has been elaborated to solve landfills saturation problems through the execution of reinforced structures constituted by M.S.W. (Municipal Solid Waste) with an inclination of 70°, allowing to extend the life of the landfill.*

**ponuda (na engleskom):**

*The company intends to propose and possibly stipulate framework and / or joint venture agreements through a strategic partnership or private public partnership with local public administrations for the construction and*

reclamation works in landfills with the elaboration of a initially master plan and subsequently definitive and executive project and the search for possible funding of international organizations (such as EBRD and World Bank) and funding from donor countries, bringing the general project based on the requests. A non-exhaustive list of local authorities is provided, identified by a study carried out by Eng. Cocca on behalf of the Tre.e Network: Arandjelovac; Backi Petrovac; Becej; Bogatic; Bujanji; Dimitrovgrad; Gorni Milanovac; Indija; Ivanjica; Jagodina; Kragujevac; Kraljevo; Krusevica; Kula; Novi Sad; Padina; Pancevo; Pirot; Subotica; Zlatibor. We send to email addresses cooperation.pianosuud@ice.it and belgrado@ice.it one our studies concerning non-sanitary landfills in these locations.

**ITALRECUPERI SRL**

**[Energetika / Zaštita životne sredine]**

Grad: POZZUOLI, CAMPANIA

**WWW.ITALRECUPERI.COM**

**o kompaniji:**

*ITALRECUPERI SRL je kompanija koja posluje u oblasti upravljanja neopasnim otpadom, a njene aktivnosti obuhvataju i sanaciju i izgradnju. Osnovana 1985. godine, ITALRECUPERI SRL je stekla dobru reputaciju u svom sektoru delatnosti zahvaljujući ulaganjima u istraživanje i razvoj, u profesionalno usavršavanje zaposlenih osoblja i nabavku inovativnih mašina.*

**opis na engleskom:**

*ITALRECUPERI SRL IS A COMPANY ENGAGED IN THE NOT HAZARDOUS WASTE MANAGEMENT, RECLAMATION AND BUILDING ACTIVITIES. IT WAS FOUNDED IN 1985 BY MOCCIA'S BROTHERS AND IT HAS BECOME SPECIALIZED IN ITS SECTOR THANKS TO THE INVESTMENTS IN RESEARCH AND DEVELOPMENT, STAFF TRAINING AND PURCHASING OF INNOVATIVE PLANTS AND MACHINERIES.*

**ponuda (na engleskom):**

*NEW TECHNOLOGIES FOR THE SEPARATION AND THE CORRECT RECOVERY OF NON HAZARDOUS WASTE*

---

**Mapi Italia Srl**

**[Energetika / Zaštita životne sredine]**

Grad: Garlasco, LOMBARDIA

**Non presente**

**o kompaniji:**

*Proizvodnja i trgovina papirom, srodnim proizvodima i proizvodima od papira, uključujući pakovanje i materijale*

*za pakovanje i odgovarajuće elemente od plastike.*

*Realizacija i upravljanje kogeneracijskim postrojenja za kogeneraciju električne energije iz čvrstog komunalnog otpada*

**opis na engleskom:**

*The industry and trade in paper, related articles and paper products, including packaging and packaging material and complementary applications in plastics.*

*The realization and the management of cogeneration plants for the production of electrical energy from urban solid waste.*

**ponuda (na engleskom):**

*Pyrogasification and pasteurization plant of Syngas to obtain methyl alcohol. Plant with zero emissions (no gaseous emission if not from the internal combustion engines for the production of electricity and no liquid emission).*

---

**Newster System srl**

**[Energetika / Zaštita životne sredine]**

Grad: Cerasolo di Coriano, Emilia Romagna

[www.newstergroup.com](http://www.newstergroup.com)

**o kompaniji:**

*Proizvodnja i prodaja sistema za tretman i sterilizaciju potencijalno infektivnog zdravstvenog otpada; dezinfekcija otpadnih voda iz bolničkih odjeljenja; neutralizacija laboratorijskih tečnosti.*

**opis na engleskom:**

*Manufacture and sale of systems for the treatment and sterilization of potentially infectious healthcare waste; the disinfection of wastewater coming from hospital wards; the neutralization of laboratory fluids.*

**ponuda (na engleskom):**

*Machines for the neutralization of laboratory fluid waste; system for the disinfection of sewage water coming from hospital wards; machines for the treatment and sterilization of medical waste.*

---

**PAOLO BARCHI S.R.L.**

**[Energetika / Zaštita životne sredine]**

Grad: Genova, LIGURIA

[WWW.PAOLOBARCHI.IT](http://WWW.PAOLOBARCHI.IT)

**o kompaniji:**

*Paolo Barchi Srl je kompanija koja posluje u oblasti projektovanja novih objekata za civilne i industrijske potrebe. Kompanija je fokusirana na primenu novih tehnologija za racionalizaciju upotrebe energije, uključujući i eksploataciju obnovljivih izvora energije. Menadžment kompanije fokusiran je na izgradnju poverenja i čvrstih odnosa sa klijentima kroz pažljivo i inovativno planiranje, posvećujući im posebnu pažnju tokom faze implementacije i narednih faza.*

*Kompanija je trenutno u tranzicionoj fazi*

sa Sistema upravljanja kvalitetom ka uspostavljanju integrisanog Sistema upravljanja sertifikovanog prema zahtevima međunarodnih standarda upravljanja kvalitetom uključujući i OHSAS 18001, UNI CEI 11352, ISO 14001.

Kompanija je akreditovani kao ESCO za realizaciju projekata koji uključuju mere energetske efikasnosti. Na ovom polju, kompanija je sproveda različite studije i realizovala projekte, uključujući transformaciju solarne energijesistem trigeneracije (CHP & CCHP – combined cooling, heating and power), eksploatacija geotermalnih i hidrotermalnih izvora energije, itd.

Stečene kvalifikacije uključuju: OG11 class.IIIbis, OS28 class.IIIbis, OS30 klase. III, OS3 class.II, OG9 class.II, OG1 class.I

#### **opis na engleskom:**

*Paolo Barchi S.r.l. is a company operating in the field of design of new facilities for civil and industrial applications. The company focuses on the employment of new technologies for energy rationalization, including also the exploitation of renewable sources. The company has a large customer base, made up of both public and private subjects. The Management focuses on consolidating the relationship with customers through a careful and innovative planning, a particular attention during the implementation phase and the following phases. The company is in a transition phase starting from Management Systems for Quality Certification ISO 9001 and towards the Integrated Management System including also the OHSAS 18001, UNI CEI 11352, ISO 14001 Certifications.*

*We are accredited as ESCO for the realization of projects involving energy efficiency measures. Upon this business sector, the company has carried out studies and realized projects including Photovoltaic energy conversion, CHP and CCHP generation, Geothermal and Hydrothermal energy conversion, ecc.*

*The qualifications obtained include: OG11 class.IIIbis, OS28 class.IIIbis, OS30 class. III, OS3 class.II, OG9 class.II, OG1 class.I*

#### **ponuda (na engleskom):**

*CHP & CCHP (Combined Heat & Power and Combined Cooling, Heating & Power) generation, photovoltaic energy conversion, heat pumps based systems, thermal energy recovery in general, smart lighting and domotics. Process and plant optimization through the implementation of dedicated and customized Energy Management Systems, metering and automation software tools.*

### **Rete TRE.E. European Environmental Enterprises**

**[Energetika / Zaštita životne sredine]**

Grad: Taranto, Regione Puglia

<http://www.tree-pi.com>

#### **o kompaniji:**

*Rete TRE.E - Evropska preduzeća za zaštitu životne sredine " predstavlja grupaciju 32 kompanije iz italijanske regije Pulja*

*Glavne aktivnosti preduzeća koja čine Rete TRE.E su sledeće:*

- Inženjerske usluge i konsultantske usluge u sektoru zaštite životne sredine
- Sanacija životne sredine;
- Izgradnja i upravljanje:
  - Postrojenja za tretman otpada: komunalni, industrijski i medicinski;
  - Postrojenja za hemijsko-fizičku preradu otpada: komunalni, posebni i posebni opasni otpad;
  - Kompostiranje otpada;
  - Kogeneracija otpada;
  - Postrojenja za prečišćavanje otpadnih voda: komunalni i industrijski;
  - Postrojenja za prečišćavanje vode;
  - Građevinski radovi.

**opis na engleskom:**

*The "Rete TRE.E – European Environmental Enterprises" is an aggregation of 32 companies of the Apulian Region (Italy).*

*Main activities of TRE.E's companies are the following:*

- *Engineering services and environmental consultancy;*
- *Environmental remediation;*
- *Building and management:*
  - Waste treatment plants: municipal, industrial and medical;*
  - Waste chemical-physical treatment plants: municipal, special and special hazardous;*
  - Composting plants;*
  - Waste to Energy plants;*
  - Wastewater treatment plants: municipal and industrial;*
  - Water treatment plants;*
  - Civil works.*

**ponuda (na engleskom):**

*Innovative technologies in the following sectors: water treatment, waste treatment and remediation of contaminated sites.*

---
